

Pilot Project Report

SEANBC Mobile Education Program

Need for Remote Education

- SEANBC provides localized seminary education through local education centers all over Southeast Asia
- SEANBC cooperates with local churches to raise up local church ministers
- Trained local language teachers are limited.
- Remote Education cannot be avoided for this reason.

SEANBC works with local Churches

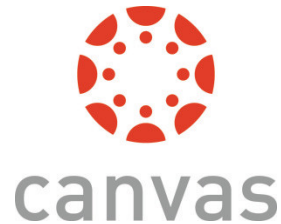

- SEANBC has been establishing 27 education centers in cooperation with churches in Southeast Asia.
- National Directors and Center Coordinators constitutes the Structure of the SEANBC Seminary education
- Churches provide facilities and students while SEANBC provide Qualified Seminary education program.

Online vs. Mobile

- High Cost and Risk of Centralized and integrated Online Education solutions
- Former experiences with sophisticated eLearning solution to be unsuccessful in the context of low level internet environment.
- Be Mobile to overcome barriers reaching students in various context
- Be Mobile to cooperate with local leaders for remote education
- Be Mobile to be flexible and evolutionary solutions making.

Easy Mobile Solution: Social Media

Typical Screencasting Method

- Noiseproof Studio
- Screencast S/W + Multiple Monitor + Wacom Tablet
- Stand Mic + Video Camera

We tried it first but it proved to be too difficult for our teachers to learn
Need to find easier way!

Easy Mobile Solution: iPad

- iPad Pro + Apple Pencil + Earphone Mic
- Easy lecture recording solution for teachers in SEANBC
- iOS 11 supports simple Screen recording function natively.
- Translated textbook in PDF
- Avoid difficult Studio Recording environment for the teachers in the context of Southeast Asia

Mobile Communication

- Proctor role: Mediates and guides students making up teachers physical absence in education.
- SNS group communication among students, teachers, and proctors. (LINE, VIBER)
- Do not isolate a student alone.
